Union

Software Developer

(510)-371-1962

github.com/deveshp530

deveshp530@gmail.com

www.linkedin.com/in/dpatel530/

Skills:

- Microcontroller operations/ARM processor architecture
- REST APIs/JSON
- TCP/IP suites
- TDD Unit testing with Mocha and Chai
- OOP principles
- Git
- Java/JavaScript
- HTML,CSS
- NodeJS/ExpressJS/ReactJS
- MongoDB/Mongoose/ PostgreSQL
- Python/Django/ Django Rest

Projects:

- Simon says (<https://github.com/deveshp530/project1>)
 - Used JavaScript to imitate 'simon says.' A circle would flash and the user would have to click the circle. If guessed correctly, another circle would flash creating a pattern.
- Favorite Artists (<https://github.com/deveshp530/project2>)
 - Created a basic full-stack application using the MEHN stack. Application has full CRUD functionality where a user can add their favorite artists.
- 'Hole in the wall' (<https://github.com/deveshp530/project3-frontend>)
 - Was part of a team of four, and was responsible for creating the frontend. Used yelps API to search for bars with a certain number of reviews. Used the MERN stack and offers full CRUD.
- Workout Forum (<https://github.com/deveshp530/project-4>)
 - Built an open forum where users can sign up and post their workout for the day. Built in Python, Django, Django templating and offers full CRUD

Education

Software Engineering Immersive, General Assembly, remote, August 2019-November 2019

B.S. Computer Engineering, San Francisco State University **January 2019**

Related Coursework - Design with Microprocessors, Computer Systems, Digital Systems Design, Introduction to Object Oriented Programming, Computer Communication Networks, Software Development

Experience

Cashier/Server,
2019

Buffalo Wild Wings, Union City,

August 2015-May
